

# SUMMER 2016 INTERNSHIP PROJECT

## **GEPLAN CONSULTING OFFER A SUMMER INTERNSHIP PROJECT IN ITS OFFICE IN FERRARA (ITALY)**

**TITLE:** CHARACTERISATION OF THE POST MESSINIAN SEQUENCE OFFSHORE CENTRAL ADRIATIC SEA

**DATASET:** offshore 2D seismic lines, well logs

**STUDY AREA:** Central Adriatic Sea (Italian waters)

**DESCRIPTION OF THE PROJECT:** The post-Messinian sequence represents a prolific gas province in the Adriatic Sea with several TCF of biogenic gas discovered in Plio-Pleistocene turbiditic sequences. The objective of the project is to geologically characterize the Plio-Pleistocene sequence of the central Adriatic Sea integrating well and seismic data

The student will also :

- Organize and prepare a well and seismic dataset
- Interpret 2D seismic lines
- Correlate well logs

**PERIOD:** July – October 2016

**IF YOU ARE INTERESTED IN THIS OPPORTUNITY SEND YOU PRESENTATION LETTER AND YOUR CV AT: [students@geplan.it](mailto:students@geplan.it)**

**GEPlan Consulting**  
Petroleum GeoSciences

GEPlan is a consulting firm based in Italy and founded in 1998. Since 2003 GEPlan has opened a petroleum division that can provide innovative and integrated consulting services for international E&P companies operating in the oil business. GEPlan provides extensive domestic and international geoscience consulting for E&P activities, reservoir characterization and environmental analysis. GEPlan has rapidly become a consultant firm leader in Italy. From its base in Ferrara, the company covers the full range of E&P expertise and has been and continues to be involved in several industry-sponsored research projects related to reservoir characterisation.
