

Fluid and melt inclusions: examples of application in volcanology

Prof. Annamaria Lima

12 hours – 3 CFU

Short Program of the Course:

- Importance of fluids in geological processes - 3 hours
- Fluid and melt inclusions in minerals and interpretation and utilization of both microthermal and compositional data - 3 hours
- Examples of application in the eruptive products of Somma-Vesuvius - 3 hours
- Examples of applications in the eruptive products of Campi Flegrei - 3 hours
