

## **Mediterranean, Subtropical, and Tropical lagoon-dune-beach systems**

Prof. Carlo Donadio

12 hours – 3 CFU

### **Short Program content:**

- Transition environments: Mediterranean, Subtropical, and Tropical lagoon-dune-beach geomorphic systems – n.4 hours
- Morphosedimentary analysis of waterscapes of transition environments – n.4 hours
- Dynamics and man-induced changes along littoral prisms and lagoons: geomorphological hazard and adaptive strategies – n.4 hours

### **Suggested Background:**

Basic knowledge of Geomorphology, Sedimentology, and Quaternary Geology
